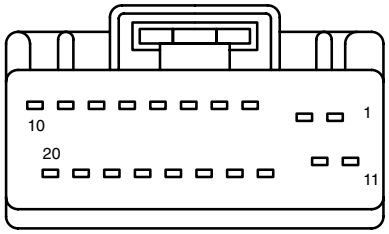
C3036a (BK)

14A699

Climate controlled seat module, passenger side



F20045

Pin	Circuit	Circuit function
1	1064 (YE/LB)	Climate controlled seat cushion element, passenger side – heater +
2	1065 (WH/LB)	Climate controlled seat cushion element, passenger side – heater –
3	1553 (BK)	Climate controlled seat fan, passenger side, motor –
4	1973 (RD)	Climate controlled seat switch, heat, indicator, control
5	1974 (LB)	Climate controlled seat switch, cool, indicator, control
6	1551 (VT/WH)	Climate controlled seat switch, heat, switch sense
7	1018 (LG/OG)	Climate controlled seat switch, Temperature, signal +
8	–	not used
9	57 (BK)	Ground
10	1565 (VT)	Climate controlled seat fan, passenger side, signal
11	1066 (GY/LB)	Climate controlled seat backrest element, passenger side – heater +

Pin	Circuit	Circuit function
12	1067 (VT/LB)	Climate controlled seat backrest element, passenger side – heater –
13	1552 (RD)	Climate controlled seat fan, passenger side, motor +
14	1554 (WH)	Climate controlled seat fan, passenger side, signal
15	1019 (TN/LB)	Climate controlled seat switch, Temperature, signal –
16	1550 (WH/OG)	Climate controlled seat switch, cool, switch sense
17	1060 (BK/LB)	Climate controlled seat cushion element, passenger side – Signal return
18	1548 (DG/LG)	Climate controlled seat cushion element, passenger side – Temperature, Sensor
19	1549 (DB/OG)	Climate controlled seat backrest element, passenger side – Temperature, Sensor
20	1062 (RD/LB)	Climate controlled seat backrest element, passenger side – Signal return
